

YouGov Survey: DNA Testing

Sample 1164 U.S. adult citizens

Conducted January 3 - 9, 2025

Margin of Error ±3.8%

1. Have you ever taken a mail-in DNA test?

Yes	21%
No	78%
Prefer not to say	2%

2. How interested would you be in taking a mail-in DNA test?

I've already taken one	21%
Very interested	12%
Somewhat interested	22%
Not very interested	16%
Not at all interested	24%
Not sure	5%

3. Has anyone in your family other than you taken a DNA test? Select all that apply.

Yes, someone in my immediate family (such as a parent, sibling, or child)	27%
Yes, someone in my extended family (such as a grandparent, cousin, aunt, or uncle)	15%
No	36%
Not sure	27%
Prefer not to say	1%

4. Did the DNA test taken by either you or your family member(s) result in anything that surprised you?

Asked of those who either have taken a DNA test or whose immediate family member has taken a DNA test

Yes	33%
No	67%

5. Did you learn from DNA test results about any close relatives whom you previously didn't know about?

Asked of those who either has taken a DNA test or whose immediate family member has taken a DNA test

Yes	25%
No	72%
Prefer not to say	4%

6. Did DNA test results change the way you think about your racial or ethnic identity?

Asked of those who either has taken a DNA test or whose immediate family member has taken a DNA test

Yes	16%
No	71%
The test results did not include any information about race or ethnicity	10%
Prefer not to say	2%

7. Which of the following are reasons why you took or would be interested in taking a DNA test? Select all that apply.

Among people who have taken a DNA test or are very, somewhat, or not very interested in taking one

To learn about ancestry and heritage	59%
Out of curiosity or for fun	54%
To trace family history or lineage	54%
To learn about health risks or genetic traits	41%
To connect with family members	22%
To verify or compare previous DNA test results	10%
To explore past adoptions in the family	8%
Other	3%
Not sure	6%

8. Which of the following are reasons why you are not interested in taking a DNA test? Select all that apply.

Among people who are somewhat, not very, or not at all interested in taking a DNA test

Privacy concerns	42%
Distrust of companies handling DNA data	36%
No interest or perceived need	34%
Too expensive	33%
Already know ancestry and heritage	18%
Don't trust accuracy of DNA tests	16%
Don't want to discover upsetting information	6%
Other	3%
Not sure	9%

9. How much do you know about your family's ancestry or heritage?

A great deal	9%
A lot	15%
A moderate amount	32%
A little	32%
None at all	10%
Prefer not to say	2%

10. How much would you prefer to know about your family's ancestry or heritage?

A great deal	31%
A lot	24%
A moderate amount	28%
A little	9%
None at all	4%
Prefer not to say	3%

11. Do you think any of your ancestors were important historical figures or royalty?

Definitely	7%
Probably	14%
Probably not	41%
Definitely not	16%
Not sure	21%

12. Were you adopted?

Yes	3%
No	95%
Not sure	1%
Prefer not to say	1%

13. How much of a concern is privacy in your decision of whether to take a DNA test or not?

Very much a concern	30%
Somewhat a concern	29%
Not very much a concern	25%
Not at all a concern	15%

14. How accurate do you think DNA tests are?

Very accurate	28%
Somewhat accurate	62%
Not very accurate	8%
Not at all accurate	2%

15. Do you think that law enforcement should be able to access the records of DNA test companies to assist in solving crimes?

Yes, for all crimes	27%
Yes, but only for violent crimes	34%
No	20%
Not sure	19%

16. Do you think people who take DNA tests should be able to opt out of allowing their records to be shared with law enforcement?

Yes, in all circumstances	29%
Yes, except if they are personally being investigated for a crime	32%
No	19%
Not sure	20%

17. If law enforcement asked for your DNA in order to prove that a distant relative of yours was guilty of a violent crime, would you be willing to share it with them?

Yes	44%
No	24%
Not sure	32%

18. Now we are going to ask you about some hypothetical scenarios. Imagine you are taking a DNA test for the first time and as a result would learn some surprising previously unknown information. Would you want to take the DNA test or not if it meant that you would learn...?

	Yes, I would	No, I would not	Prefer not to say
That you have a high likelihood of developing a serious health condition	73%	19%	7%
That you have a biological sibling whom you had never met	71%	23%	6%
That you were adopted	63%	31%	7%
That you are not biologically related to your father	61%	32%	8%
That you are not biologically related to your mother	60%	33%	8%
That you are distantly related to your spouse or partner	60%	33%	7%
That a family member had committed a violent crime	59%	33%	8%
That an ancestor was a slave owner	59%	33%	9%

YouGov Survey: DNA Testing

Interviewing Dates	January 3 - 9, 2025
Target population	U.S. Citizens, aged 18 and over.
Sampling method	Respondents were selected from YouGov's opt-in panel to be representative of adult U.S. citizens.
Weighting	The sample was weighted according to gender, age, race, education, 2024 presidential vote, 2020 election turnout and presidential vote, baseline party identification, and current voter registration status. Demographic weighting targets come from the 2019 American Community Survey. 2024 presidential vote, at time of weighting was estimated to be 48% Harris and 50% Trump. Baseline party identification is the respondent's most recent answer given around November 8, 2024, and is weighted to the estimated distribution at that time (31% Democratic, 32% Republican). The weights range from 0.052 to 6.572, with a mean of one and a standard deviation of 0.886.
Number of respondents	1164
Margin of error	± 3.8% (adjusted for weighting)
Survey mode	Web-based interviews
Questions not reported	87 questions not reported.

YouGov Survey: DNA Testing
 January 3 - 9, 2025 - 1164 U.S. adult citizens

17. Share DNA with Police

If law enforcement asked for your DNA in order to prove that a distant relative of yours was guilty of a violent crime, would you be willing to share it with them?

18A. DNA Hypotheticals — That you have a high likelihood of developing a serious health condition

Now we are going to ask you about some hypothetical scenarios. Imagine you are taking a DNA test for the first time and as a result would learn some surprising previously unknown information. Would you want to take the DNA test or not if it meant that you would learn...?

YouGov Survey: DNA Testing

January 3 - 9, 2025 - 1164 U.S. adult citizens

Interviewing Dates	January 3 - 9, 2025
Target population	U.S. Citizens, aged 18 and over.
Sampling method	Respondents were selected from YouGov's opt-in panel to be representative of adult U.S. citizens.
Weighting	The sample was weighted according to gender, age, race, education, 2024 presidential vote, 2020 election turnout and presidential vote, baseline party identification, and current voter registration status. Demographic weighting targets come from the 2019 American Community Survey. 2024 presidential vote, at time of weighting was estimated to be 48% Harris and 50% Trump. Baseline party identification is the respondent's most recent answer given around November 8, 2024, and is weighted to the estimated distribution at that time (31% Democratic, 32% Republican). The weights range from 0.052 to 6.572, with a mean of one and a standard deviation of 0.886.
Number of respondents	1164
Margin of error	± 3.8% (adjusted for weighting)
Survey mode	Web-based interviews
Questions not reported	87 questions not reported.
