48. Should Supreme Court overturn the Defense of Marriage Act

In 1996, the federal government passed a law that says the government will only recognize marriages between a man and a woman. It was called the Defense of Marriage Act, or DOMA. This law means that married same-sex couples could not receive federal benefits when it comes to taxes or entitlements like Social Security and Medicare. The Supreme Court is now hearing arguments on whether this law is constitutional. Several lower courts have said it is not. Do you think the Supreme Court should uphold DOMA and only recognize heterosexual marriages, or should it overturn the law and let the federal government recognize same-sex marriages, too?
