YouGov Survey: LGBTQ+ Issues

July 25 - 28, 2023 - 1000 U.S. adult citizens

Interviewing Dates	July 25 - 28, 2023
Target population	U.S. citizens, aged 18 and over.
Sampling method	Respondents were selected from YouGov's opt-in Internet panel using sample matching. A random sample (stratified by gender, age, race, education, geographic region, and voter registration) was selected from the 2019 American Community Survey.
Weighting	The sample was weighted according to gender, age, race, education, 2020 election turnout and Presidential vote, baseline party identification, and current voter registration status. Demographic weighting targets come from the 2019 American Community Survey. Baseline party identification is the respondent's most recent answer given prior to March 15, 2022, and is weighted to the estimated distribution at that time (33% Democratic, 28% Republican). The weights range from 0.088 to 6.515, with a mean of 1 and a standard deviation of 0.66.
Number of respondents	1000
Margin of error	± 3.7% (adjusted for weighting)
Survey mode	Web-based interviews
