The Year One Phonics Screening Check could decrease children's confidence in reading if they fail and need to resit. : The Government says that the Year One Phonics Screening Check for 5 to 6 year olds, is designed to confirm whether individual pupils have grasped the basics of phonic decoding (i.e sounding out words) by the end of Year 1. The check is a national assessment that all teachers in England administer in the same week in June.To what extent to you agree or disagree with the following statements:

Changes to planning rules in England will make it easier for free schools to open in offices, hotels and shops from this summer, the government has confirmed (source: BBC 2013). To what extent do you agree or disagree that free schools should be allowed to open in premises without having planning permission for school use?

Any publicly-funded school should only employ qualified teachers to teach my child. : Free schools are set up by groups of parents, teachers, charities, businesses, universities, trusts, religious or voluntary groups, but funded directly by central government. The schools are established as academies, independent of local authorities and with increased control over their curriculum, teachers' pay and conditions, and the length of school terms and days. Thinking about free schools, to what extent do you agree or disagree with each of the following statements?
