This week the Newsnight presenter Jeremy Paxman returned to work with a beard. Do you think Jeremy Paxman looked better with or without a beard?

With a beard	13	14	15	18	9	11	12	19	16	11	21	14	11	12	16	10	13	13	12	15	13

Jeremy Paxman said, perhaps jokingly, that the BBC was biased against men with beards. Leaving aside whether or not he was serious, do you think the BBC are or are not biased against presenters with beards?

The Serious Organised Crime Agency has compiled a list naming 102 firms that have used private investigators to illegally hack or blag information. They have given the list to a Parliamentary committee, but the names on it have not been published because criminal investigations may still be underway against those named.

Do you think the list of companies involved should or should not be published?

Should be published - it is in the public interest to know	53	51	59	46	64	51	57	53	58	49	52	48	54	58	49	59	51	52	53	57	54

Do you think there does or does not need to be a full public inquiry into the use of private investigators by private companies?

Does need to be an inquiry, the issue needs to be properly explored in public	52	43	61	50	60	43	61	53	54	49	45	50	52	55	47	58	45	50	52	55	57

It was reported this week that a 22 year old mother was asked to leave a public swimming pool after a lifeguard spotted her breastfeeding her 4 month old baby in the water in a corner of the toddler and baby pool
