**David Cameron said he would renegotiate if the Conservatives won the next election, and hold a referendum by the end of 2017**

**Do you think ...**

There should be a referendum as soon as possible, before the next election. There is no good reason to delay

It is better to wait until the present crisis in the Eurozone is over and we see how the EU develops before holding a referendum

There is no need for a referendum at all
