A recent rumour originating from a website has alleged that William Hague had an 'improper relationship' with a male aide, Christopher Myers. In response Mr. Hague released a statement confirming that he had on occasion shared twin hotel rooms with his advisor, but that the allegations of an improper relationship were 'utterly false' and that his marriage was 'strong'. He also revealed that he and his wife, Ffion, had suffered several miscarriages whilst trying to start a family.

Do you believe William Hague is or is not telling the truth?
