Thinking about how much income people earn in this country: what would you say the gap is, if anything, between the highest-earning income and the lowest-earning full-time income in the UK? Please choose the following statement that best describes your view.

The highest income is well over a thousand times the lowest full-time income	<b>37</b>	40	38	36	39	44	43	45	30	29	41	40	31	40	34	39	37	39	34	36
The highest income is roughly a thousand times the lowest full-time income	<b>13</b>	16	13	14	14	17	13	11	15	13	11	15	15	14	12	12	14	13	11	15
The highest income is roughly five hundred times the lowest full-time income	<b>10</b>	11	9	11	10	9	7	9	10	11	7	11	12	10	9	8	12	7	10	9
The highest income is roughly a hundred times the lowest full-time income	<b>6</b>	8	7	8	7	6	7	7	6	3	6	7	6	6	6	8	6	6	5	7
The highest income is roughly fifty times the lowest full-time income	<b>4</b>	3	4	4	4	2	3	4	3	5	3	3	4	3	4	2	3	4	5	3
The highest income is roughly ten times the lowest full-time income	<b>2</b>	3	2	3	1	3	3	3	2	2	2	2	2	1	3	3	1	1	3	2
The highest income is roughly twice the lowest full-time income	<b>0</b>	0	1	1	0	1	0	1	0	0	1	0	1	0	1	0	0	0	0	2
There is no real difference between the highest income and the lowest full-time income	<b>0</b>	0	0	0	0	0	0	0	0	1	0	0	0	0	0	0	0	0	0	1
None of these	<b>2</b>	1	1	1	2	1	0	1	2	3	2	1	0	1	2	3	1	1	1	2
Don't know	<b>26</b>	19	26	23	23	18	24	19	33	33	27	21	28	23	30	24	25	27	30	24

Sample Size: 1667 GB Adults  
Fieldwork: 4th - 5th December 2016

	EU Ref 2016			Vote in 2015				Gender		Age				Social Grade		Region

<b>Weighted Sample</b>	<b>1667</b>	655	712	470	390	100	160	807	860	193	712	412	350	950	717	200	553	358	402	153	
<b>Unweighted Sample</b>	<b>1667</b>	753	735	498	417	109	170	697	970	157	639	450	421	1011	656	175	582	372	403	135	
	%	%	%	%	%	%	%	%	%	%	%	%	%	%	%	%	%	%	%	%	%

And what would you say is an acceptable gap, if anything, between the highest-earning income and the lowest-earning full-time income in the UK? Please choose the following statement that best describes your view.

It would be acceptable for the highest income to be well over a thousand times the lowest full-time income	4	5	4	6	3	1	3	5	3	5	4	4	2	5	2	5	5	3	3	3
It would be acceptable for the highest income to be roughly a thousand times the lowest full-time income	2	2	3	3	1	4	2	3	2	3	2	2	2	3	2	4	3	2	1	1
It would be acceptable for the highest income to be roughly five hundred times the lowest full-time income	6	7	6	8	5	5	7	7	5	14	5	5	6	8	5	8	7	5	6	7
It would be acceptable for the highest income to be roughly a hundred times the lowest full-time income	13	16	13	18	10	17	18	17	9	9	13	15	12	15	11	12	13	12	14	12
It would be acceptable for the highest income to be roughly fifty times the lowest full-time income	13	16	12	11	18	18	9	15	11	6	12	15	16	14	11	14	14	10	13	15
It would be acceptable for the highest income to be roughly ten times the lowest full-time income	17	18	19	15	19	25	21	17	18	13	15	23	19	18	17	14	17	18	18	20
It would be acceptable for the highest income to be roughly twice the lowest full-time income	6	6	7	4	7	4	5	7	6	9	6	5	7	6	7	7	6	6	6	9
There should be no real difference between the highest income and the lowest full-time income	5	5	5	3	7	6	9	4	5	4	5	5	4	3	7	7	4	4	5	7
None of these	3	3	3	3	3	0	1	3	3	3	4	2	2	3	4	3	4	3	2	2

Imagine the following two situations. In the first situation, everyone in the UK has the same chance of living a long and healthy life. In the second situation, one person has a good chance of living a long and healthy life while everyone else has a poor chance. On a scale of 1 to 10, where 1 is the first situation and 10 is the second, where would you put the UK currently?

1 - Everyone in the UK has the same chance of living a long and healthy life	<b>10</b>	10	12	12	12	12	10	9	11	3	8	12	16	8	12	10	11	10	10	5
