## 26. Views on Florida's Stand Your Ground law

There is a law in Florida – the Stand Your Ground law – that allows individuals to use deadly force if they believe they or others are threatened. They can do this both inside and outside their homes. There is no need for the individual to attempt to get away from the threat first. Some people say that this law is necessary to ensure that people can protect themselves without threat of prosecution. Other people say that the law encourages violence and can cause innocent people to get hurt. What do you think about this law? (A) I support the law; (B) I support the idea behind the law but only if individuals are being attacked in their homes; (C) I do not support the law; (D) Not sure
