13. Run-off or first past the post

In some areas, a candidate must win 50% of all votes cast in order to win the election. If no candidate wins 50%, the top two candidates must face each other in a runoff election. In other areas, the candidate with the most number of votes wins the election, even if the candidate didn't receive at least 50% of the vote. Which election type do you think is better?

	Total	Gender		Age				Party ID		
		Male	Female	18-29	30-44	45-64	65+	Democrat	Independent	Republican
